

Contest LogChecker

Contest LogChecker is a set of contest tools for Microsoft Windows, combining advanced text editing with keyword highlighted, and the ease and flexibility of import, export, statistics and charting utilities. With LogChecker you can edit, fill in the log, check Cabrillo Format and Header, convert files from the most popular logging software to Cabrillo, print customizable files, calculate statistics and export logs to RTF, PDF or HTML for publishing. You can examine a log in many different ways by highly interactive methods.

Contest LogChecker™;

With Contest LogChecker you can:

- Check Cabrillo Log Format, including line length, white spaces position, mode, frequency, date and time value.
- Check QSO Entries, including duplications check, Master Callsign Database and Callbooks (BuckMaster HamCall, QRZ and RAC) maintenance.
- Create and Edit the entire Cabrillo Header (version 3.0).
- Sort QSO by Date/Time.
- Fill in the log directly to Cabrillo format (from paper log).
- Import from different HAM-radio log program formats (ADIF, CT, TRLOG, STF etc.).
- Convert logs to ADIF, Cabrillo, and Excel CSV format.
- Calculate Statistics for the most popular contests and save all the data to a file.
- Create Contest Chart for QSO, Points and Multipliers separately and save the chart picture to a file.
- Special Export to RTF, PDF and HTML for publishing.
- Use a powerful, highly customizable, and easy to use editing environment.
- Create smart dynamic bookmarks using hot keys or menu items.
- Cut, Copy, Paste, Insert, Delete, Find, Replace, and multilevel Undo/Redo.
- Change Line Endings (UNIX, Windows, and Mac formats).
- High quality printing logs with customized fonts and colors.

Version - 2.6

Size of a file ZIP - 3.68 MB

Date posted - September 12, 2009

The minimal requirements:

OS - Windows 98/ME/2000/XP/Vista/Seven

LogChecker is not free software. Unregistered copies of LogChecker are fully functional, but will save 100 lines of text and calculate statistics for CQ-WW and CQ-WPX Contests only. You can download and use LogChecker free of charge for a period of 30 days.

Registering LogChecker will help to ensure that development of the program continues.

Once registered, you'll get a lifetime unlimited free access to any future release, without having to register again.

For Windows 95 users only:

You shall first install the following Microsoft updates:

- Microsoft Foundation Classes. In case you're experiencing error mentioning 'mfc42.dll', download the setup file below and install it before installing Contest LogChecker: VC6RedistSetup_enu.exe from

<http://support.microsoft.com/default.aspx?scid=KB;en-us;q259403>;

- Common Control Library Patch. Download file 50comupd.exe, install and reboot;

- Microsoft DUN 1.3 and Winsock2 Year 2000 Update. Download file y2kvdhcp.exe (the version for your language), install and reboot.
